Personality n. The habitual patterns and qualities of behavior of an individual as expressed by both mental and physical activities and attitudes.

Personality is not a compartment of our Soul like the mind, emotions, or conscience. Our personality is the result of the interactions of our mind, emotions, and conscience along with our God given character traits. Not all babies act the same. Some are content while others require constant attention. This is part of their DNA and is not a learned tendency. We all have personality traits and tendencies from birth and as we mature our habitual patterns and behaviors are developed by our environment.

Proverbs 22:6

Train up a child in the way he should go: and when he is old, he will not depart from it.

Parents like to quote this scripture to their children, but it also applies to us. If we are God's child, then we need to be trained in the way we should go.

Hebrews 12:9-11

Moreover, we have all had human fathers who disciplined us and we respected them for it. How much more should we submit to the Father of spirits and live! They disciplined us for a little while as they thought best; but God disciplines us for our good, in order that we may share in his holiness. No discipline seems pleasant at the time, but painful. Later on, however, it produces a harvest of righteousness and peace for those who have been trained by it.

The new birth does not automatically change our personality because habits and behaviors are in-grained in our personality. God desires to develop our personality by changing these habits and behavior to match his principles for our lives.

Personality

God's word:

- Renews our mind
- Tempers our emotions
- Guides our conscience
 - To develop our personality

Our DNA related personality traits are not wrong, they just need to be developed by God's word working on our mind, emotions, and conscience. Then our soul can be at peace with God and at peace within itself. Hebrews 12:11 promises a harvest of righteousness and peace with God.
